Leader Strategy Workshop.....	14

OPERATIONS TEAM RETREAT

On June 27th 2023, the operations team was treated with a special breakfast at Mountain View, courtesy of the leadership.

This included Mzwandile Nkambule, Vusa Sithole, Colile Magongo, Fikile Fakudze, and Sibongile Dlamini. The team was joined by the National Team Leaders Rev. Samson and Mrs Ncamsile Nzima.

Sibongile Dlamini spoke on behalf of the team and thanked the leadership for the recognition saying that such outings help a lot in team building.

“We are more than delighted for such and we pray that it doesn’t stop but continue regularly.” She said.

STAFF DEVELOPMENT AT MLILWANE NATURE RESERVE

There was a Staff Development training at Mlilwane Nature Reserve for all CCC staff, and some key volunteers on July 6th 2023.

Patrick and Leah Conti from Juniper Table were the main facilitators of the training which focused on helping the staff to understand the 16 different personality types.

The couple introduced the staff to Myers and Briggs concept of 16 personalities which also helped each person to identify with a certain personality type.

“It was a very insightful experience mainly because it helped us to understand each other better especially because we have different personality types.” Mandla Maziya, GCM staff noted.

Some of the topics that were discussed included understanding the differences between introversion and extroversion, intuition and sensing, feeling and thinking, and judging and perceiving.

Human Resources Manager gave a detailed report below.

By King Kunene
(CCC Eswatini LDHR)

The aim of the Staff retreat and Leadership growth day was to enlighten staff on the diverse personalities that exist within the staff as to enable them to be aware of their own personalities and that of others.

Awareness of personalities is very important because it helps individuals team members to understand each other better and avoid unnecessary disputes and division, but instead allow the different personalities to work towards the advantage of the organization - unity in diversity.

The response from the Training on personalities was overwhelming. Participants expressed their great appreciation and gave a positive and very helpful information regarding the Training. Which includes: understanding and awareness of their

personalities and those of others. Getting answers from some causes of misunderstandings among teams. Others came out with a change attitude and great appreciation of others. From the feedback firms, most of the participants requested that we have another Leadership day.

Going forward I am expecting a significant growth in the understanding and valuing of each other in the organization, which shall lead to more harmony, effectiveness and unity among the Teams.

VUSA ADDED TO DEEPLIFE EDITORIAL TEAM

CCC media officer Vusumuzi Sithole has been selected into the Deeplife Magazine Africa editorial team as of July 2023.

Vusa has been with CCC for a year and specialize in compiling the ministry reports, designing newsletters, graphics designs, and photography.

CCC Africa is aiming to publish the first issue of the magazine by December 2023.

“It came as a pleasing surprise and I am thankful for such an opportunity as I will also learn from other designers across Africa.” Highlighted Vusa.

Eswatini A6 Project

A6 Project Team Visit Eswatini

Eswatini SLM has been blessed to receive the A6 Project team from Korea that has visited the country from 10 July to 12 August 2023 in a mission to help in building spiritual movements and multiplying disciples in the local campuses.

What is A6?

A6 stands for Acts 6000, and is a pioneering project targeting to reach 6,000 un reached university campuses around the world. It is a Korea CCC's continual commitment to the mission and vision of the Campus Mission 2007 (CM 2007) The A6 Strategy contributes to that vision of raising student-led movements to penetrate the 6000 major un reached campuses in our generation.

Korean Team

The team from CCC Korea consisted of 10 students and 2 staff. This includes; Joseph, Jerry, Grace, Sue, Shalom, Levi, Jimmy, Koo, Chacha, Eddie, Kaddy, and Inso.

Eswatini Objective

The Eswatini team aims to establish spiritual movements in 5 campuses around which will have 100 multiplying disciples in the 2023/24 calendar. With the A6 team involvement, they have been able assist at Limkokwing University, EMCU, ECOT, Rescue, and Taekwondo In Action.

Empowerment

For each campus, a local staff was assigned as a Campus director working hand in hand with some of the Koreans. Students were having city wise meetings every Saturday at the Campus Crusade for Christ hall for NTLC, and MD Training.

MD Appointment

Some of the students that attended and finished both the NLTC and MD trainings were awarded with recognition certificates to encourage others also.

EMCU

Speaking on how the A6 Project has improved ministry, Thandi Shabangu, EMCU campus director was quick to say

“We were introduced to a much simpler and more effective follow up system that has increased the number of engaged disciples and hopefully multiplying disciples.”

The EMCU CCC team have been having successful Campus Wise Meetings, whereby the students were vibrant in bringing inputs in how they can improve ministry in their campus.

Olive Shabangu one of the EMCU students highlighted that being part of the EMCU movement has given her a new family, as she was also assisted in celebrating her birthday on the 03rd August 2023.

Siyamethemba Phiri another student at EMCU highlighted that being with CCC has equipped him with enough tools to share the gospel.

ECOT

A Spiritual movement has been established at ECOT which is a new campus for the local SLM team. Prior to the A6 team arriving, Ashia, the campus director went to share the gospel with a group of 4 students. Amongst the 4 students was Sihle Tfumbatsi who is now an MD, having attended NLTC and MD trainings, and also sharing to over 15 students and soon to lead a small group.

“What we see happen in the campuses is really inspiring because at the end we don’t want to have staff led movements but student led movements.” Highlighted Ashia Maphosa acknowledging the new movement at ECOT.

Limkokwing University

The A6 Project commenced at an inconvenient time for effective ministry at Limkokwing as the university closed after a week of the team’s presence there. Nonetheless, at least 6 students attended NLTC and MD trainings from Limkokwing.

“We don’t want to have staff led movements but student led movements.”

TIA

Before the A6 Project, SLM had successfully started a movement with the Taekwondo In Action (TIA) team, and they also became part of the project by attending the city wise meetings and committing to multiplying disciples.

Evangelism Tools

What worth noticing is the different evangelism tools that were used by the A6 Project team. This included solarium game, the four spiritual laws, and the Holy Spirit booklet among others.

“It was really fun sharing the gospel using the solarium game, because it made it easy to start the

Conversation. When the person chooses the favourite picture, it surely open to much conversation that finally introduce Christ.”
Noted Luyanda Zwane a student from CIT college.

New Family

Setsabile Ngcamphalala who is a student at Limkokwing University expressed her gratitude and

gratitude to CCC and the A6 Project team for celebrating her birthday with a mini party.

“It really felt special, I am more than honoured and inexpressible thank God everyday for this new family I have been bestowed with.” she said.

HIGH SCHOLAR TAKES THE INITIATIVE

Phiwokuhle Mathunjwa a Grade 9 student at St Francis High School also shared her testimony after the whole SU team was trained on sharing the Gospel using the FOUR in their school as a way to enlarge the SU team.

She alluded “It was terrifying and it sounded improper but I think being led by the Holy Spirit was

what gave me confidence, made me realize that I'm not doing it for my glory but God's. It felt like the more I shared using the Four, the more it gave me a greater and divine revelation of God's love, besides the fact that it's brief, it's straight forward and lays the basics of one's journey to salvation”

Thank You

A6 Team

Student Led Movements Eswatini expresses their heartfelt gratitude for the ministry assistance and effective presence of the A6 Project Team from Korea. May the Love of Christ reign in your lives forever, Amen.

3 NEW MOTORBIKES FOR GCM

GCM Eswatini has by the grace of God been able to secure three (3) motorbikes for the ministry as of May 2023.

These motorbikes have been assigned to field persons like Mnotfo Nkambule, Mphumelelo Xaba, and Sandile Makhathini, who are all working mostly with rural communities.

Mnotfo Nkambule is a full time staff member while Xaba and Makhathini are key volunteers who have been active with the ministry since 2020.

“We thank God and the ministry at large for giving us these bikes, they will make our work very smooth.”

MC2 BEARING SMALL GROUPS

Mankayane

Roy Sukati is one of labourers who was already on the field participating in the great harvest. He joined the online MC2 training in April to June.

He started a small group in the area of Mankayane. His passion during the training was greatly ignited and he invited some of the believers in the fellowship to be equipped on the skills of evangelism and discipleship as they reach that area with the Gospel.

Household Gets Christ

On 22nd May 2023, Kalokhayisa kaLanga, in Siteki, GCM staff Mandla Maziya met 19 year old Zandile while doing home-to-home evangelism.

Zandile gave her life to Christ, and later shared to her mother, Mrs. Madolo who asked from her husband to start a small group at their home. The husband agreed and a small group started, as they started fellowship from June 2023.

MORE MC2 TRAININGS

By Bongiwe Sibandze (GCM)

The purpose of MC2 Training is to equip and empower believers on how to connect with people through prayer-care-share (just as Jesus did) so that each of them can reach at least 5 new believers, begin a discipleship journey with them, and also train them to repeat the process.

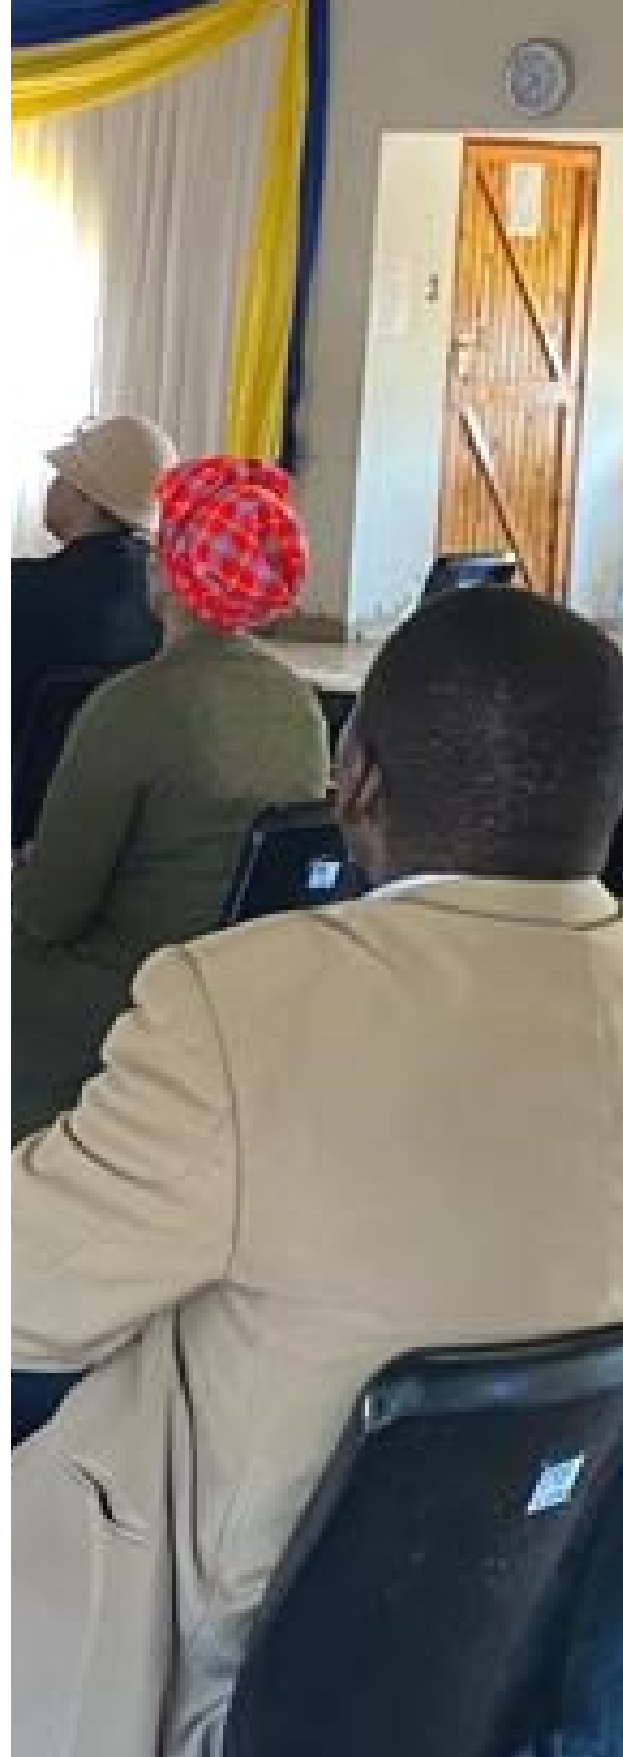

GCM had 2 live MC2 trainings in the month of July. The first one was on the 8th of July 2023 at Piggs Peak, Mbhasheni Church of the Nazarene. This was the first part of the training, where we did 5 topics and gave them time to apply the skills on their own. More than 20 people from two different churches attended the training.

The second one was on the 15th of July 20213 at Mankayane, Mtimane African Evangelical Church. This was a follow up training from the first one that commenced in May 2023.

We had time to listen to their 'I WILL STATEMENTS'. It was amazing as the pastor shared that they have already started having a small group in South Africa where they trust God to plant a church. On that very same weekend some of the church elders were not present because they went to that place to do house to house evangelism.

The pastor also shared that he is still new in that place, even though it was hard for others to accept him, one family came to him. The family was led by the father and he told him that he came to present his whole household to start coming to his church. He added that this was influenced by this home-to-home evangelism because it is scarcely happening in the area.

We are praying that God will continue using Mntimane AEC.

SALVATION REACHES INDIGENOUS CHURCH

Before Bongiwe Ginindza joined the MC2 training online, she had the desire to reach her church, especially young people with Gospel.

She fellowships in the light church in Zion. This one of the Indigenous African churches where the Bible principles are less practised and traditional African Spiritual customs are mostly practised.

After getting permission from the pastor to help the youth on

the matters of developing their relationship with Jesus and living a life that is worthy of the faith, many young people gave their lives to Jesus.

GCM TEAM FOCUS ON MPD

Campus Crusade for Christ operates as a faith-based organization. Part of our values if FAITH so we believe in God for everything for this human impossible task. It is Him who has all the powers and authority to draw man to Him, even resources to fulfil this task entirely depends upon Him.

As a results in the month of June the GCM team stepped out in faith to find ministry Partners who are seeking for a privilege to invest in the Kingdom of God. Some invest in prayer, some become volunteers and some fund the ministry.

MC2 TRAINING GRADUATION

Participants of the MC2 Training that commenced in February had a blissful graduation ceremony that was held at the Campus Crusade for Christ Hall in Mbabane.

35 participants graduated majority of whom were women. Most of the participants had been very active already in implementing some of the things they have learnt in the MC2 training with some planting churches, starting home cells, and leading home visitations in outreaches.

Mrs Thembi Mdluli narrated how a movement started at Mafutseni with the help of Campus crusade. She thanked the ministry for the support she has received in being equipped, and assisted with resource materials like the Jesus Film and Four Spiritual Laws booklets among others.

“We started with children ministry where I used to share the gospel to community children that would gather at my home, I then asked that we have the Jesus Film show

whereby throngs of people showed up. We also had home visitations where a lot of people gave their lives to Christ also. In one instance I found a sickly old woman and prayed for here over the window since she would not open, and God intervened as she was healed.” She explained.

With the dedication that is showed by most of the graduates, the future of the Women ministry looks bright.

NATON GRACE LEADER IMPACT WORKSHOP

As a follow up to the Leadership Forum that was held in April, Leader Impact once again had another workshop on 24th June 2023, where Naton Kamanga was the guest speaker.

Naton Kamanga, is the current leader of Leader Strategies Africa, and also leads Leader Strategies South Africa.

At least 8 professionals attended the workshop. The new Leader Strategies structure which makes Leader Impact a subside was explained in the meeting.

Naton also encouraged the local team to customize Leader Impact according to the needs and strengths of the nation.

St. Holy Rosary High Equipped with EXAM PREPARATION

In March, Leader Impact in collaboration with Students Led Movements hosted a Study with Success seminar at Saint Holy Rosary High.

The school was revisited on July 1st whereby the external classes, Form 3 and Form 5 were equipped with Exam Preparation. LI leader King Kunene led the team which included Mancoba Dlamini (SLM leader), Thulani Dlamini (SLM staff) and Vusa Sithole (Media officer).

The topics that were covered included *Exam Preparations*,

Setting Goals and Keeping Yourself Sharp. At least 31 learners prayed the prayer to receive Christ, and few had one on one sessions with the facilitators for assistance in academic and personal needs.

THANK YOU

*Campus Crusade for Christ Eswatini management and staff
hereby express their gratitude in recognition of your
unreserved support for the ministry.*
