

About Us

CAMPUS CRUSADE FOR CHRIST ESWATINI

Campus Crusade for Christ as an interdenominational organization was originally founded in 1951 by Bill & Vonette Bright in USA and is currently active in over 190 countries as of 2023. The sole purpose of the organization is to help in fulfilling the Great Commission of Jesus Christ.

CCC has been active in Eswatini since 1973, and has Student Led Movements, Global Church Movements, Leader Strategies, Digital Strategies, and Jesus Film as active strategies.

We are availing ourselves to be used by God as hand tools as He Win, Build, and Send Christ multiplying disciples. We believe that God is still changing lives by using committed staff, volunteers, and ministry partners.

PURPOSE

We exist to help fulfill the Great Commission

VISION

To build spiritual movements everywhere until everyone knows someone who truly follows Christ.

MISSION

To Win, Build, and Send Christ Multiplying Disciples

VALUES

Faith, Growth, Fruitfulness

Director's Remarks

*“And how can they believe in the one of whom they have not heard? And how can they hear without someone preaching to them?”
- Romans 10:14 (NIV)*

When God want to do something in the world, He uses people.

We are therefore more than privileged to be chosen in helping to fulfil the Great Commission. This goes not only to our staff, but also volunteers, partners and everyone involved in the CCC ministry.

The Lord commanded us to go and make disciples of every nation, and that command still stands today. We can only imagine how catastrophic and apocalyptic the world would be without God. But again, how can people know about God when Christians no longer share the gospel?

We therefore thank everyone that has availed, volunteered or even supported the ministry by any form possible. Such commitments is what makes the ministry thrive, it is also what make the world a better place.

We thank God for empowerment opportunities that has seen Mancoba being part of the Next Gen leadership training program and Sibusiso being selected for GATL Master's program in Leadership. King was also able to have a very successful trip to Uganda where he learnt specifically about how Leader Strategies function there.

Another major highlight was the Success at School TOT which was also a huge success, having over 81 participants and attendees from other countries. It was also encouraging to

know that teachers requested to have the TOT be annually.

The impact that the Study with Success and Success At School program has in the ministry is just incredible. We have been able to reach to new places, met new people and popularised the organization as a whole.

We all know that God much as God uses people, He does not force anyone into anything. We are therefore appreciative to everyone that is involved with CCC Eswatini because it is because of their efforts that we have reached the milestones we have and are still believing God to reach others also.

We ask that you continue with your unwavering support for the ministry, and may God bless you.

Samson Nzima (CCC Eswatini NTL)

“

**SUCCESS IN
WITNESSING IS
SHARING THE GOSPEL
IN THE POWER OF THE
HOLY SPIRIT AND
LEAVING THE RESULTS
TO GOD**

”

Mr. Amu addressing students at SANU

STUDY WITH SUCCESS AT SANU

We thank God for using the Study with Success program to open numerous doors for the ministry.

This year, SLM was able to bring the program at Southern Africa Nazarene University (SANU) in their first year students orientation on October 6th 2023.

Mancoba sharing at SANU

317 — students were exposed to the gospel

72 — students prayed the prayer to receive Christ

STUDY WITH SUCCESS AT EMCU

Eswatini Medical Christian University (EMCU) is one of the most fruitful ministry campuses. With a relationship that has spurned for over 12 years, SLM has been very active through the collaboration of Christian movements in the university called Morning Dew.

This year was no exception as the Study with Success seminar was hosted for first year students as part of the orientation process. The facilitators included SLM staff, GCM staff, Morning Dew staff, EMCU lecturers and key volunteers.

Continuous Interactions with MC2 Participants-Follow-up

Bill Bright, the founder of Campus Crusade for Christ once said “The way to give direction to a movement is through training and material”. As we do MC2 trainings we have seen it as a discipleship process than a mere evangelism and discipleship training. Through this we are engaging with trainees through coaching, we help them to practice the skills as they do ministry. We encourage them in their walk with Holy Spirit.

One of the trainings we held is at Mbasheni where we were approached by Pastor Thomas. Is it so amazing how he heard about us. He said he heard from someone who once worked with GCM and so he came straight to the office to enquire more. Soon after the appointment, he quickly set up a date for the whole team to come and train his church. Nor did he only arranged it for his church, when we reached there registering people, we surprised to find participants about 24 people from 4 different churches: Nazarenes, Apostolic church, Zionist and Jericho.

This was first for us for train people from Jericho one of the deep indigenous African churches. We really appreciate our organization for being non-denominational, we were able to blend in without pushing any logo or ego but making disciples. Pastor Thomas has been taking a lead in applying the skills. Since training was in two parts, the first was on the 8th of July, the last one was on the 8th of August at Mbasheni, Piggs Peak. He has been moving house to house using amazing question and four Spiritual Laws. “God has been helping me to do this, saints” He exclaimed with excitement sharing His report in the WhatsApp group.

Mnotfo Nkambule is one of the GCM staff that use Bikes

Bikers Taking the Gospel of Rural places of the Country.

Is anything too hard for the LORD..... Genesis 18: 14. From the beginning to the end, He is God, He will make sure the gospel penetrates even the tightly closed places. It was a wonderful time so see more than 40 believers came for the training at Mvubula on the 16 of September in the Manzini region.

This area is far from the city with a very long gravel, from the tarred road and not conducive for small cars. It is so amazing how God works, part of our plan is to reach the entire Kingdom with trainings, partnerships with pastors and church planters. We know our plan would be futile if God did not touch and used people to donate these motorbikes. We really appreciate all GCM partners!

Praying, Mobilizing & Planning for More Labors for GCM

It is about time, we know God will do it, He said we should ask Him for labours then He will send them. We are planning for a MC2 Trainer of Trainers. Like we mentioned so many times, our goal is to cover the whole Kingdom of Eswatini. We desire that our presence is felt in every region; we want to see a VITAL Church for every 1000 people.

That is the reason on October we want to have the TOT with 6 participants, each from the four regions. Please pray as we raise for fund, and that God send us Faithful Available and Teachable kind of MC2 Trainers.

PIONEERING INTO MISSIONAL GAPS

My trip to Cambodia

By Sibusiso Mlambo (GCM Leader Eswatini)

After I enrolled for the Masters degree in Transformational Leadership at the Global Academy for Transformational Leader, based in the United States of America, I attended our first classes in Cambodia in August. It gives me a pleasure to share some of the highlights.

On Saturday on the 2nd of September, we visited a pastors' one day conference, organized by Campus Crusade Team. Over 100 pastors attended.

which are without Christ. Dr. Bekele, the Global Church Movement Vice President, talk about the importance of a church and the Kingdom of God.

The word "Church" appears only three times in the Bible and each time it is revealed, it talks about Christ revealing himself and relationship with humanity.

On other hand, the word " Kingdom of God" appears 46 times. This gives emphases that God is building his kingdom. This analogy gave me insight on our mission to build the Kingdom of

Sibusiso Mlambo (2nd R back row) with GATL classmates

The main theme of the conference was "*We are together for the Great Commission of Jesus Christ in Cambodia*". Cambodia has more than 16 million population and only 2 percent are Christian.

Different presentations were made and pastors were challenged to collaborate and come up with ways on how to reach out to the 98% population

God. Reaching the 98% unbelievers in Cambodia require the pastors to have a bigger vision and collaboration.

On Sunday the 3 of September, we visited the Svay Rieng Province, about 3 hours drive from Phenon Phen. As we travelled I noticed that about 80 percent of houses had a small temple, resembling idol worship. We visited more than 6 house churches and had a first hand experience on how

church planting is taking place through the training done by the the Global Church Movement Team. The people have open their homes for church fellowship. God is using ordinary women and men to lead these house churches.

Old man, women, young people attended. Some during testimony session, reported that they sometime experience persecution for their faith, but that cannot stop them from following Jesus and sharing their faith. Through this experience, I have observed that God is in the business of building and growing his church, whether under a tree or a house. My prayer is to see the 98% Cambodian reached out with the gospel.

On the 6th of September, we visited the Toul-Sleng and the Killing Fields Museum where a Cambodian genocide took place. We were told that from 1975 to 1979 close to 2 million people were persecuted and killed by Khmer Rouge(A communist party) under the leadership of Pol Pot.

It was hurting to learn how cruel humans can be. As I walked on the killing fields museum, seeing the skulls and the bones of the victims, I reflected on the book of Genesis 4:4-12. Cain killed his brother without mercy. This is a serious problem that affects human beings all over the world.

As long as sin prevails, killings and brutality will continue and the solution is the power of the gospel which is in Christ Jesus. This was a confirmation that I am part of God's plan to preach the gospel of peace.

NTL facilitating at SAS TOT

Urs Wolf at SAS TOT

SUCCESS AT SCHOOL TOT 2023

Women Ministry has effectively used the Success At School strategy to establish spiritual movements in Eswatini. By hosting the SAS Training of Trainers workshops they have been able to invite teachers, lecturers, community leaders, and church leaders to kindle relationships that create room for movements to be built.

This year, they were able to host the training (TOT) on 22-25th August 2023, at Campus Crusade for Christ hall in Mbabane. At least 81 participants attended which included SLM leaders from CCC South Africa, Mozambique and Lesotho. Lesotho's NTL also graced the workshop.

The participants included professors, principals, teachers and students. Since there were a lot of interested participants that could not join the training; a follow up training was also held at S.A.G.M Primary School where 45 teachers attended. Author of the Success At School program, Urs Wolf also attended the training.

Members of the Women Ministry volunteering team were also included in the team of facilitators.

Mrs. Ncamsile Nzima, who leads women ministry highlighted that the training of trainers has been of great help in accelerating ministry activities as new movements

were built in different universities and high schools, working in collaboration with SLM who then do the follow ups after each seminar.

Speaking about the training, Eswatini National Team Leader Samson Nzima highlighted that engaging more teachers will actually help in reestablishing crossroads.

“Our goal is to revive Crossroads, so we hope that we will be able to engage some participants for Crossroads after the TOT.” He said.

Equipped to Equip

Since the spaces to attend the SAS TOT were already occupied, SAGM Primary Head teacher Thuli Masuku worked with Mrs Nzima of Women Ministry to host a follow up training for teachers at the school. At least 45 teachers attended.

Mrs Masuku is a SAS graduate herself having attended the training in November 2022.

Some of the topics that were covered in the seminar included *Setting Priorities, Homework Support, Learning Styles, The Pareto Principle*, and many more.

SAS SEMINAR AT SITEKI CHURCH OF GOD

Siteki Church of God of Prophecy were blessed with the Success At School seminar when Women Ministry visited The church on 16th September 2023. Some of the topics that were covered include; Setting Priorities, Setting Goals, The Pareto Principle, and many more. The seminar was attended to by both parents and students.

SAS SEMINAR AT MALKERNS VALLEY SCHOOL

Women Ministry has been actively reaching new places through the Success At School seminars. On 5th October 2023 the team visited Malkerns Valley School where the young ones were equipped with academic excellence

topics like *Exam Preparation, Setting Goals, Defining Priorities, Learning Styles, Best Parenting Styles, and Keeping Yourself Sharp*

Speaking after the training, Malkerns Valley School Principal thanked

CCC saying;

“We feel blessed to have you here, knowing you are not just helping the children academically but are also concerned with their spiritual well being.”

192 Students were exposed to the gospel

138 Prayed to receive Christ

CHILDREN MINISTRY TOT FOR WOMEN MINISTRY

In Matthew 19:14 (NIV) Jesus said, “Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these.”

On September 10th, women ministry key volunteers were equipped with a Children Ministry Training of Trainers. The intention is to help maximize children ministry impact in churches and communities.

VISION CASTING AT VOCTIM

The Success At School or Study With Success tool has been very instrumental in opening doors for the ministry especially in colleges. With it being adopted by Eswatini Medical Christian University (EMCU), Limkokwing University, and most recently Southern Africa Nazarene University (SANU), the desire is to see it being adopted by almost all the tertiary institutions in the country.

On September 26th 2023, Gwamile VOCTIM welcomed CCC National Team Leader with a slot to do a vision casting about the program in their first year orientation in Matsapha. The orientation was attended to by 134 students.

On Monday October 2nd, Rev. Samson Nzima led prayer and shared the gospel where 3 people prayed the prayer to receive Christ.

MISSIONARY TRIP TO UGANDA

By King Kunene (Leader Impact Director)

The trip to Uganda was a phenomenal experience, eye opening, enlightening, empowering and transformational. It was more of an on-the-job training, combined with observations, modelling and formal learning.

The exposure, one on one talk with different leaders and key volunteers, practical involvement in ministry gave me a comprehensive understanding of the Leader Strategies (LS) in Uganda, as well as Leader Strategies ministry in general. Special Light was shed on Leader Impact collaboration with the other ministries, since the concept and philosophy of Leader impact is the base of the success of the other ministries.

Leader Impact

The Highlight for Leader Impact is that they have been able to form small groups which are formed through dividing the Leaders and professionals into different domains, in line with their professions, which include the following: Engineering, Education, Medical, Management, Law,

With teachers

At Shekinah Christian Int'l School

Leader Strategies meeting

King Kunene sharing Setting Goals in a school

Finance and business. The staff then work hand in hand with the group leaders in guiding, coaching, modelling and practical involvement in ministry.

It was a great privilege to attend the New Life Training Curriculum (NLTC) retreat organized by Leader Impact, from (29 September to 02 October 2023), which was a great success, and about 24 leaders and professionals attended the training. This group was composed of Leaders and professionals – Engineers, Educators, entrepreneurs and nurses.

The retreat made a huge impact in my life and the life of the participants. As a results, most leaders and professionals went back with great excitement, empowered and the mindset to work.

In a nutshell shell, I was able to be exposed and involved in a number ministries and activities in Uganda, and thus able to discover the secret behind the success of

their ministry, especially under Leader Strategies, Leader Impact and LDHR.

The exposure came at the right time when the foundation has been laid in Eswatini and some grounds covered and there is a great level of ownership among a number of key volunteers, but

the most important thing was to take the ministry to the next level. I am very confident that the Uganda trip which was timely, crucial and priceless, and will take our ministry to greater heights and yield lasting fruits.

From 22nd to 26th August 2023, DS Africa hosted an Africa Digital Champions Summit (ADCS) in the Peacock Hotel, Lusaka, Zambia. Eswatini DS leader Luvuyo Dube and media officer Vusa Sithole attended the summit. Luvuyo describes how the summit will impact digital strategy in Eswatini.

By Luvuyo Dube

The ADCS in Zambia really was a great place to be as we were taught a lot of things that pertains collaboration and also being effective in the ministry.

This year was different in the sense that it was a mixture of National DS leaders and also DS Champions which are people who have been involved with the strategy, want to be involved and are part time volunteers of the strategy.

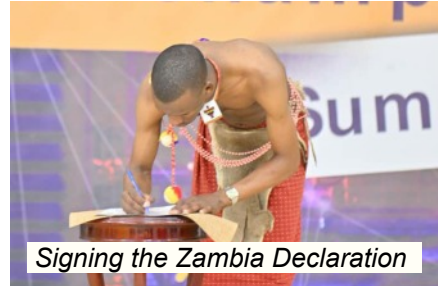

About 120 participants came through to the summit and it was an

amazing time because we got to know what's happening in other countries with regard to DS and how we can apply that in our own National DS Ministry.

The theme of the year was one of our intent: Pioneering into Missional Gaps. This clearly stipulates that the gospel need to reach new places and new audiences where ministry hasn't been done in your country. This should be intentional in all countries to make sure that new places are being reached out to using the digital

Eswatini's present to DS' VP

Signing the Zambia Declaration

Vusa in one of the discussions

Luvuyo (L) as an MC in the ADCS

(Main Picture Left) ADCS group photo showing all participants in the Summit which included DS leaders and DS champions from over 29 African countries.

tools available in a way to utilize all the Digital tools CCC provides.

The highlight of the summit was the meeting the VP DS team lead by Cheryl Boyd who is the DS Global Vice President, She did put major emphases that it is of utmost importance that DS is able to collaborate with other strategies in the different national ministries so that we can work with maximum impact.

She also mad a point that we need to let people know about Christ without pride "People want to see the difference that Jesus is making in your life. If we make sharing the Gospel about us, that means sharing the Gospel won't be an act of love but Pride."

DIGITAL SCHOOL OF MINISTRY

For the past few months, as a new leader of the Strategy, I have been going through some trainings under Digital School of Leadership in a way to helping me know what to do and learn on th different approaches that can be used in DS.

The most important thing I learnt about was the issue on Google Analytics. This was a stunner because we were taught on the impact that a post makes on Social Media and the fact that if it doesn't reach the targeted audience, you can remove it and put another one that will be more centred on the audience you're trying to reach out to.

Jesus film show at Mfulamude Church

JESUS AT THE CENTRE OF IT ALL

There is a popular adage that says Seeing is believing, and it can always make more sense with the Jesus Film project. The Jesus Film is currently the most watched film of all time in the world with a staggering statistic of 8.1 billion viewers as of May 2023, and has a Guinness world record of being the most translated film in history as it has been translated to about 2,000 languages.

It is more than a privilege to be part of this tremendous work that God is doing even in Eswatini. With CCC being the parent organization of the Jesus Film, we are committed to showing the film in different places, sharing download links and in partnering with like-minded strategies

or organization which want to see more people get to see the visual. JF Eswatini has been able to reach over 868 people, 76 of whom prayed the prayer to receive Jesus Christ as their Lord and Saviour between July and September 2023.

JF has visited Qomintaba FEA, Qomintaba High, Mpalane Apostolic Church, Mfulamude Church, Leading Light Grace Church, Hlane, Sibusisweni COTN, Khuphuka, Sigombeni, Compassionate Ministries, Sihhohhwani Pre School, Malunge Pre School, and Progress In Faith church from July to September 2023.

Mphumelelo Xaba, a key CCC JF volunteer has been very instrumental

in sharing the gospel through the Jesus Film project. He was quick to note how much of an impact JF has and its significance in Eswatini today saying,

“Visuals are more significant because they stay in your mind. For most people, something you have seen is more memorable than something you have heard, So the Jesus Film makes it even better to tell the story of Christ especially to children and students.”

JF has been showing the film in communities, churches and schools. Xaba also highlighted how relevant it is even to students in Eswatini saying; “Religious Education is compulsory in the country so that means all students must learn about Jesus, so bringing the Jesus Film helps them not just spiritual only but academically too.”

Key volunteer Mphumelelo Xaba
